ze	Plank	Air punches	Tricep dips	Tuck jumps	
Bronze	Sit ups	High knees	Up-down plank	Lunges	Rest time between sets:
B					1 minute

Task: Select a difficulty on the Nandos Peri-ometer scale, which also lines up with the challenge scale from Bronze to Platinum. Once you have chosen your difficulty, you should complete the HIIT (high intensity interval training) exercises in that colour, with the appropriate work and rest time. The more challenging the level, the more work time you get and also the less rest time, so make sure you chose a challenge that is appropriate for you!

How to complete: You can either split your workout into four sections; core, cardio, upper body and lower body, completing the exercises that work similar muscle groups all together before moving onto the next, or you can opt to make it easier and mix these up to avoid fatigue by putting them into an order of your choice.
